

RUANG

INTERIOR STUDIO

Studio profile

Interior design and build for homes, cafes, shops and offices. One studio from the first sketch to the day we hand you the keys.

Who we are

Ruang is an interior design and build studio founded in 2016 and based in a shophouse in Bangsar, Kuala Lumpur. Our designers, 3D visualiser and site team work under one roof, so the person who drew your room is the person who checks it on site.

We prefer materials that age well in Malaysian heat and humidity: solid oak, terrazzo, rattan, linen and limewash.

In numbers (sample figures)

Measure	Figure

How a project runs

- | | |
|--------------|---|
| 01 Listen | A two-hour consultation at your space to agree the brief, budget range and what success looks like. |
| 02 Design | Layouts, 3D views and a material board. Two rounds of changes are included. |
| 03 Build | Our site team builds to a fixed quotation, with a photo report every Friday. |
| 04 Hand over | We style the rooms, walk you through every detail and stay on call for 12 months. |
